Welcome to Recyvest International Limited

Turning Waste into Wealth. Powering a Cleaner Tomorrow.

Recyvest International Limited is a forward-thinking waste recycling company based in Saint Vincent and the Grenadines, committed to transforming the future through sustainable innovation. We specialize in recycling four core materials: **Plastic, Glass, Metal, and E-Waste**, creating eco-friendly solutions that fuel a circular economy.

With the rising global demand for responsible waste management and environmental conservation, Recyvest is on a mission to become a global leader in recycling technology and green investment. We're not just reducing waste — we're building wealth for everyone from it.

About Us

Who We Are

At Recyvest International Limited, we believe in the power of transformation — taking what the world discards and turning it into valuable resources. Since our inception in Saint Vincent and the Grenadines, we have grown into a strategic player in the recycling industry, serving communities, industries, and environments alike.

Our work focuses on:

- **Plastic Recycling:** Giving plastics a second life, reducing ocean and land pollution.
 - **Glass Recycling:** Reprocessing glass waste into reusable, eco-friendly products.
 - **Metal Recycling:** Recovering valuable metals to support industrial and construction sectors.
 - **E-Waste Recycling:** Safely extracting and reusing components from electronic waste.
-

Our Mission

To lead a global shift toward sustainable recycling by converting waste into reusable resources while offering high returns for our investors.

Our Vision

To be the world's most trusted and innovative recycling enterprise — driving economic growth through environmental responsibility.

Why Invest in Recyvest?

A Growing Global Industry

With over **2 billion tons** of waste generated annually worldwide and increasing global regulations pushing for recycling, the demand for innovative waste management solutions has never been higher.

Recyvest is strategically positioned to capitalize on this boom. Our infrastructure, regional expertise, and international vision set us apart as a **high-impact, high-reward investment opportunity**.

Revenue from Reusables

Recycling isn't just good for the planet — it's **good business**.

- **Recyclable materials have growing market value.**
- **Technological advancements increase profit margins.**
- **Sustainability is becoming a core requirement for corporations globally.**

By investing in Recyvest, you become part of a movement that turns discarded materials into recurring income streams.

Eco + Profit = Recyvest

What makes Recyvest unique?

- **Sustainable Operations:** We follow zero-waste principles.
 - **Diversified Recycling Portfolio:** Multiple revenue sources from plastics, metals, glass, and electronics.
 - **Global Growth Ambition:** We are expanding into international markets with scalable systems.
 - **ESG-Driven:** Our business aligns with global Environmental, Social, and Governance (ESG) standards.
-

Our Projects

Recyvest has launched several strategic waste recycling projects in the Caribbean, with expansion plans across **Africa, Southeast Asia, and Latin America**. From large-scale e-waste collection centers to advanced sorting and processing plants, our projects are both environmentally transformative and financially rewarding.

Partner with Us

Be Part of the Green Future

We are actively seeking visionary investors who want to support a cleaner world while achieving meaningful returns, and building long-term wealth for everyone.

Whether you're an angel investor, venture capitalist, sustainability fund, or government partner — **Recyvest offers unmatched investment potential** in a fast-growing global sector.
